

**LIFEPROOF Hard Surface Floor Cleaner – 00309104, 00337106**

- No rinsing required – leaves no dulling film
- Unique formula that keeps vinyl floor & wall tiles looking their best
- Can be used on all Armstrong residential vinyl floors, Formica, fiberglass, rubber tile, asphalt tile, ceramic and terrazzo (properly diluted only – do not use full strength)
- Do not use on linoleum, wood or cork
- Container Size: ½ Gallon = up to 32 gallons (one capful per gallon of water)

**LIFEPROOF Resilient Floor Low Gloss Polish - 00385106**

- Renews the appearance of worn or dulled vinyl floor and wall tiles
- Protects the finish of high gloss no-wax vinyl floor and wall tiles
- Ready-to-use formula
- No buffing necessary
- Container Size: ½ Gallon = 750 sq.ft. coverage

**LIFEPROOF Hard Surface Polish Remover - 00380106**

- Removes built-up polish
- Great for spot cleaning of tough ground-in stains or for overall stripping
- Ready-to-use formula
- Must be rinsed
- Do not use on wood, cork, marble, linoleum or grouted vinyl tile
- Container Size: ½ Gallon

**For Best Results:**

- When moving appliances or heavy furniture, lay a plywood panel on your floor and “walk” the item across the panel. This protects your floor from scuffing and tears. Never slide furniture or appliances directly over your floor.
- Rolling casters may damage the floor. Therefore, we do not recommend them. If you choose to use them, the double wheel types are the best option.
- Place a walk-off mat at outside entrances to reduce the amount of dirt brought into your home. We strongly recommend mats without a latex or rubber backing since these backings may cause permanent discoloration.
- When using a vacuum cleaner, disengage the beater bar or use the “bare floor” setting to avoid damaging your floor.
- Highly abrasive scrubbing tools are not recommended as they can damage your floor or wall tile.
- Use LIFEPROOF maintenance products. Do not use detergents, abrasive cleaners or “mop and shine” products. These may leave a dull film on your floor or wall.
- Paste wax or solvent-based polishes are not recommended.
- Use floor protectors on furniture to reduce indentation. The heavier the item, the wider the floor protector needed.

**Initial Floor Care:**

- Sweep, dust mop or vacuum thoroughly to remove all loose dust, dirt, grit and debris.
- Floors and walls may be damp mopped immediately, using LIFEPROOF Hard Surface Floor Cleaner.

**Daily/Regular Maintenance:**

- Sweep, dust mop or vacuum thoroughly to remove all loose dust, dirt, grit and debris. Clean walk off mats frequently.
- Wash your floor or wall regularly with LIFEPROOF Hard Surface Floor Cleaner.
- Vinyl flooring like other types of smooth floors may become slippery when wet. Allow time for floor to dry after washing.
- Immediately wipe up wet areas from spills, foreign substances or wet feet.

**Periodic Maintenance:**

- For heavy duty cleaning, use LIFEPROOF Hard Surface Polish Remover as recommended on container to remove dirt and residues that may be ground into the floor or wall.
- If the shine on your floor or wall begins to dull, use LIFEPROOF Resilient Floor Low Gloss Polish to rejuvenate the luster.
