ECO-GRADE MATERIAL

Green All Year Round

Sun Exposure&Winter Frost

UV-Resistant

Wear-Resistant

Slip-Resistant

The synthetic turf is made from green PP+PE materials, ensuring safety, corrosion resistance, and long-lasting color retention. It also effectively guards against UV rays, allowing you to enjoy a fresh space.

ANTI-SHEDDING REALISTIC STRUCTURE

Sturdy and Tear-Resistant

Grass Blade Layer

Mimics real grass color and form

Base Fabric Layer

Connects grass blades to base adhesive, securing their position

Grid Layer

(Soft Steel Reinforcement) Enhances grass blade durability

Base Adhesive Laye

Firmly holds grass blades, minimizing shedding

Connecting Layer

Creates a Uniform Lawn Installation Effect

Grass fibers mimic real colors and forms, a reinforced grid enhances wear resistance, preventing shedding. Bottom glue secures fibers, avoiding easy breakdown. More stable, less deformation, providing an improved user experience.
