

Natural and Realistic High-Density Grass Blades - Let You Fully Enjoy Life

VEVOR®

REALISTIC TURF, SOFT & COMFORTABLE

For Children or Pets to Play On

✓ 1.38" Pile Height

✓ 17000 Stitches/sqm

Low Maintenance, Comfortable and Reassuring

Our artificial turf features four-color high-density grass blades that simulate the color and form of real grass blades. With a grass height of 1.38" and a density of 17,000 stitches per square meter.. No maintenance required, saving you time and effort. Embrace nature and let the greenery bring you endless joy.

ECO-GRADE MATERIAL

Green All Year Round

Sun Exposure&Winter Frost

UV-Resistant

Wear-Resistant

Slip-Resistant

The synthetic turf is made from green PP+PE materials, ensuring safety, corrosion resistance, and long-lasting color retention. It also effectively guards against UV rays, allowing you to enjoy a fresh space.

ANTI-SHEDDING REALISTIC STRUCTURE

Sturdy and Tear-Resistant

Grass Blade Layer

Mimics real grass color and form

Base Fabric Layer

Connects grass blades to base adhesive, securing their position

Grid Layer

(Soft Steel Reinforcement) Enhances grass blade durability

Base Adhesive Laye

Firmly holds grass blades, minimizing shedding

Grass fibers mimic real colors and forms, a reinforced grid enhances wear resistance, preventing shedding. Bottom glue secures fibers, avoiding easy breakdown. More stable, less deformation, providing an improved user experience.

BACKGROOVE AND DRAINAGE HOLES

Easier Cleaning, No Water Accumulation

Deep Cleaning: Rinse with a Hose Directly

Light Cleaning: Use a Vacuum Cleaner

Our turf's backside is designed with grooves and drainage holes, making it easy to clean and preventing water accumulation.
