

LADDER STABILIZER

18.5 Ladder Stand-Off

The Tie Down Stand-Off Extension Ladder Stabilizer is designed to provide a safer, more stable working position when using extension ladders. With an 18.5 in. standoff, this accessory gives you ample space to work around gutters, windows, soffits, and siding.

Built from pre-galvanized steel, the stabilizer is lightweight yet tough, weighing only 12 lbs. Its compact design and tool-free assembly make it ideal for contractors and DIYers alike. Whether you're cleaning gutters or making exterior repairs, this stabilizer helps prevent surface damage while increasing ladder safety.

Part ID: 48589

Key Features

- 18.5 in. standoff for safer ladder positioning
- Protects gutters, siding, and paint finishes
- Lightweight 12 lb. steel frame
- Quick, tool-free attachment
