HIGH QUALITY STEEL

300LBS LOAD CAPACITY

EASY GRIP RUNGS

### High-Quality Steel

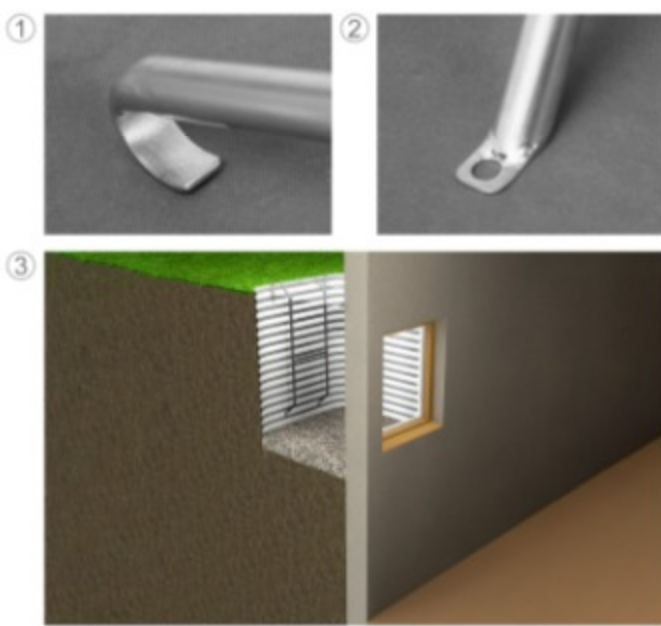

The egress window escape ladder is made from high-quality steel tubing, designed and fabricated to the highest standards to last just as long as your covers do.

### 300lbs Load Capacity

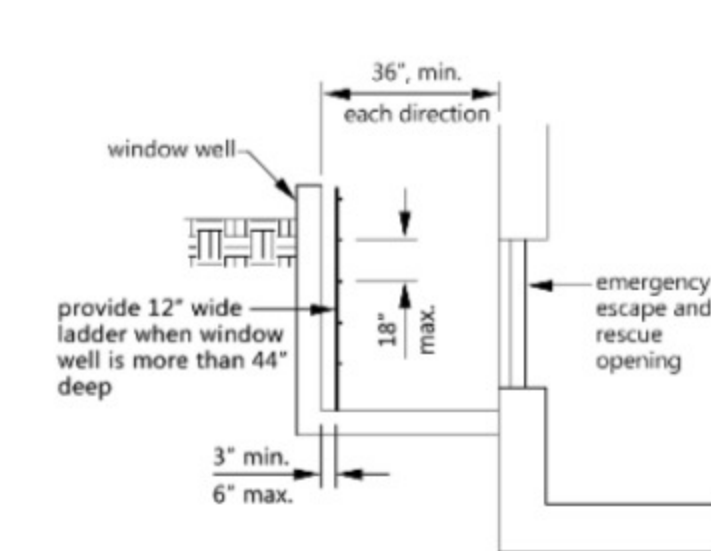

The high strength construction of the egress well ladder meets load requirements of 300 lbs.

### Easy Grip Rungs

These tubular handrails are easy to grasp, and covered with non-slip strips to provide a sure-footed way to get in and out of your window well covers safely.

EASY TO INSTALL

CONFORM TO IBC CODE

FOR EASY WELL

### Easy to Install

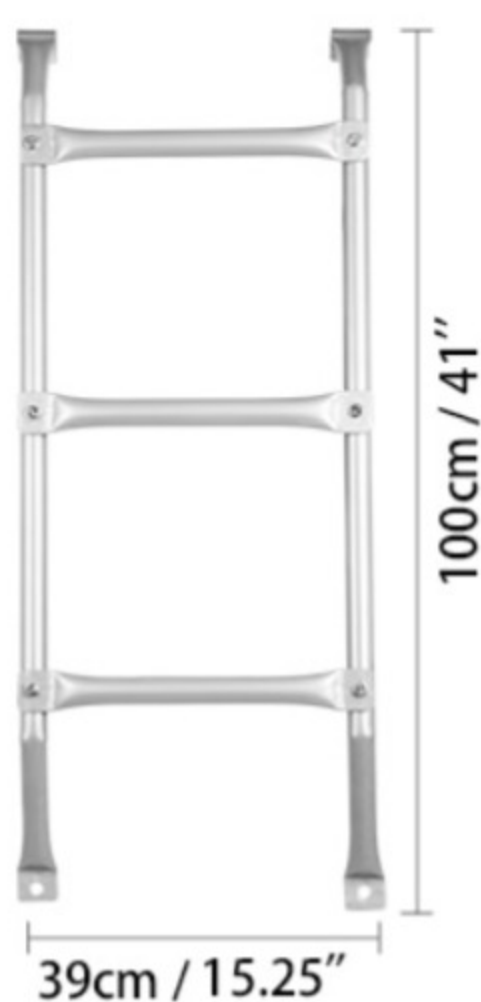

It's easy to install the ladder. Hook the ladder over the lip of your well on the side of the window opening. Attach it with included screws for additional stability.

### Conform to IBC Code

According to IFC and IBC, steps distance of a ladder can't exceed 18". The rungs of an egress ladder must be 12" wide or greater. The product completely meets IFC and IBC building codes.

### For Easy Wells

The 3-step ladder is designed for all types of easy egress wells. It can also be used as a monkey bar.
