Perfect Drywall Cutouts With NO Measuring!

Hang it once, cut it right! You'll never have to measure and cut, and measure and re-cut again. Unlike "press-to-mark" drywall marking methods, you only have to lift drywall into place one time using **Blind Mark**!

Perfect for first-time DIYs or the experienced handyperson, the Blind Mark electrical outlet locators use powerful rare-earth magnets to help you accurately locate and cut electrical outlet access holes in drywall, sheetrock, paneling and many other materials with no measuring required! Blind Mark can be used for single-gang or multi-gang receptacles.
