

SHOWER DOOR

SLIDING FRAMELESS - DOUBLE

Technical drawing of a sliding door system. The drawing shows a side view of the door and its frame. The door is 80" high, as indicated by a vertical dimension line on the right. The frame consists of a top rail and a bottom rail. The door is mounted on the top rail using rollers. The bottom rail is shown with a small gap between it and the floor. The drawing includes various components such as rollers, brackets, and the door panel itself. The door panel is shown with diagonal lines indicating its thickness. The frame is shown with a cross-section of the top rail and a cross-section of the bottom rail. The drawing is a line drawing with no shading.
