TROUBLESHOOTING

I can't get my Keypad and Lock to pair.
Make sure the Keypad's indicator light is flashing green showing it is in pairing mode. If problems persist, move the Wyze Lock Keypad closer to the Lock.

SETUP

1 Download the Wyze app

Log in or create a Wyze account

2 Set up Wyze Lock

In order to use Wyze Lock Keypad, you must first set up a Wyze Lock (sold separately).

3 Install and set up Wyze Lock Keypad

Go to the settings page of the Wyze Lock you wish to pair the Keypad with. Select "Keypad Settings" and then "Add a Keypad". Follow instructions in the app to complete installation and setup.
