**Milwaukee® Introduces Solution to Effectively Cut Green Concrete**

MILWAUKEE, WI – Milwaukee Tool provides clean, consistent cuts with their new MX FUEL™ 6" Green Concrete Saw. Part of the growing MX FUEL™ Equipment System\*, the green concrete saw has the power to cut at 1-½ inch depth while eliminating the headaches associated with gas equipment and delivering the run-time users need to get the job done.

The last step of the pour to finish process, cutting control joints in concrete limits the slab from cracking. The green concrete saw is specially engineered, giving users more control to effectively cut green, not-yet-hardened concrete without leaving imprints or the joints unraveling. Allowing concrete finishers to cut joints earlier and faster than a traditional gas-powered cut off saw, Milwaukee's concrete saw delivers the power to cut control joints at a max depth of 1-½ inches on a 6-inch blade without sacrificing cut speed or quality. Maximizing productivity, the green concrete saw eliminates the downtime from switching between blade sizes and features quick and accessible blade-depth adjustments to accurately and consistently cut at shallower depths.

Compatible with all MX FUEL™ REDLITHIUM™ battery packs, the battery-powered green concrete saw eliminates the common hassles and frustrations associated with gas-powered concrete saws. The push-button start provides instant power and eliminates the repetitive motions of a pull start, reducing downtime. The battery-powered concrete saw requires no regular maintenance, produces less noise and vibration, and has zero emissions for a safer workspace indoors and outdoors. Unlike gas-powered units that require the user to physically raise and lower the guide arm, Milwaukee's green concrete saw features a guide arm lever to easily adjust the guide arm while standing behind the handlebars, even as they

approach a wall or other obstacles. The handlebar height can also be quickly adjusted to a comfortable height for the user to reduce strain and impact on their body.

Meeting the performance expectations of concrete finishers, the green saw increases productivity on the jobsite. When paired with the new MX FUEL™ REDLITHIUM™ FORGE™ XC8.0 Battery Pack, the concrete cutter can cut up to 160 linear feet at maximum depth per charge. The new MX FUEL™ Super Charger provides 2X faster charging speeds for increased productivity and efficiency on the jobsite, charging the REDLITHIUM™ FORGE™ XC8.0 Battery Pack in only 45 minutes to 100%. The battery pack and new MX FUEL™ Super Charger are COOL-CYCLE™ capable, an Active Cooling System that provides high-speed cooling for less downtime, allowing users to stay productive when swapping batteries.

As an added benefit, [ONE-KEY™](#),\*\* provides the ability to track the green concrete saw with community tracking and alerts, complete inventory management, and industry leading smart-equipment technology to secure the user's investment.

Featuring a specific blade break-in speed, users can run the saw at  $\frac{3}{4}$  speed to break in a new blade without manually adjusting the throttle at the engine block. Also available are Milwaukee's new range of Diamond Blades for Green Concrete. The innovative blades cut up to 70 more feet of green concrete per charge for less downtime and more productivity. Featuring a U-notch design, the blades provide up to 30% faster cutting speeds, while the laser-welded diamond segments allow for increased durability. The Diamond Blades for Green Concrete are optimized for use with Milwaukee's MX FUEL™ 6" Green Concrete Saw.

Milwaukee Tool remains unwavering in their commitment to delivering disruptive innovation by working alongside trade professionals to identify challenges and provide solutions that are unparalleled in enhancing jobsite safety and productivity. With solutions that cover the entire concrete pour to finish process, Milwaukee Tool's MX FUEL™ Equipment System is safer, more reliable, and more productive, going beyond the limitations of gas and corded

solutions. For more information about the MX FUEL™ Equipment System, please visit

<https://www.milwaukeetool.com/Innovations/MX-FUEL>

**\*The MX FUEL™ Equipment System:** *This groundbreaking cordless system revolutionizes the light equipment market by delivering the performance, run-time, and durability demanded by the trades without the hazards associated with emissions, noise, vibration, and the frustrations of gas maintenance. Each of the solutions on the MX FUEL™ System go beyond the limitations of gasoline and power-cord units and operate off one completely compatible system all on the same battery. This is Equipment Redefined.*

**\*\*ONE-KEY™** *is the first digital platform for tools and equipment. By integrating industry-leading tool electronics with a custom-built cloud-based program, ONE-KEY™ provides a new level of control and access to information that revolutionizes the way work gets done. The ability to customize, track, and manage through ONE-KEY™ fundamentally changes the way users interact with their tools and equipment.*

## **Specifications**

### **MX FUEL™ 6" Green Concrete Saw (MXF SKU)**

- Battery Type: Lithium-Ion
- Battery System: MX FUEL™
- Height: 46"
- Length: 55"
- Width: 21"
- Weight (Tool Only): 83lbs
- Max Cut Depth: 1-½"
- Max Blade Speed: 4635 rpm
- Equipment Warranty: 2 Year
- Battery Warranty: 2 Year
- Push Button Start: Yes
- Kit Includes: (1) MX FUEL™ 6" Green Concrete Saw (MXF316-2XC), (2) MX FUEL™ REDLITHIUM™ FORGE™ XC8.0 Battery Packs (MXFXC806), (1) MX FUEL™ Super Charger (MXFSC), (1) Skid Plate

### **Blades**

- Purple 6" x .100" Diamond Blade for Green Concrete
- Green 6" x .100" Diamond Blade for Green Concrete
- Red 6" x .100" Diamond Blade for Green Concrete
- Orange 6" x .100" Diamond Blade for Green Concrete
- Yellow 6" x .100" Diamond Blade for Green Concrete

### **Also Available**

- 6" Skid Plate: 49-93-7260
- .100" Joint Protectors: 49-93-7268

## **About Milwaukee Tool**

Milwaukee Tool, founded in 1924, is a global leader in delivering innovative solutions to the professional construction trades that increase productivity and safety. Milwaukee® is known for their world-leading [M12™](#), [M18™](#), and [MX FUEL™](#) cordless systems, the ground-breaking performance of their cordless innovations, safety solutions, battery-powered [outdoor power equipment](#), jobsite lighting and clean-up, time-saving accessories, and innovative hand tool and [PACKOUT™ Modular Storage products](#). The company is dedicated to delivering a steady stream of advanced, trade-specific solutions.

Milwaukee Tool is a Brookfield, Wisconsin-based subsidiary of Techtronic Industries Co. Ltd. (TTI) (HKEx stock code: 669, ADR symbol: TTNDY). For more information on the full line of Milwaukee® products, please call 1-800-SAWDUST or visit [www.milwaukeetool.com](http://www.milwaukeetool.com).
