

Quality Isolation Shield and Desktop Tripod Kit

VEVOR®

Premium Recording Isolation Screen Kit

Simplify post-production editing

 Strong Shock Absorption

 High-Density EVA Foam

 Foldable Design

 Sturdy & Durable

 Easy Installation

Our microphone isolation shield features a five-panel design for a broader coverage area and effective noise reduction. The desktop tripod and shock mount provide a consistently high-quality recording experience. A 3/8" to 5/8" microphone adapter makes it compatible with most microphones.

3 Noise Reduction Innovations

Capture authentic human voices

High-Density EVA Foam with Pyramid Design for Superior Sound Absorption

Filter Layer for Sound Isolation and Stabilization

Perforated Metal Casing to Reduce Reverberation and Enhance Sound Quality

180° Wide-Angle Surround

- Purity in Sound Capture
- Record Clear Human Voices

11.22 in / 285mm Height Extension

- Block Residual Propagation
- Shield External Disturbances

Triple-Layer Sound Isolation

Our unique three-layer isolation panel design, with a perforated metal outer layer surrounded by high-density EVA acoustic foam, 180° surround design, and 11.22 in/280 mm height, effectively absorbs sound and perfectly insulated ambient noise. Elevate your recording quality to new heights.

Folds Neatly for Space-Saving Storage

Liberate your desktop space

 Innovative Five-Panel Foldable Design

 Takes Up Minimal Space

Easy to Open and Close Quickly

Three-Leg Desktop Stand

Our five-panel microphone isolation shield is more compact when folded, making it easier to carry and store than traditional three-panel isolation shields. It also allows for quick and easy setup, reducing installation time. Get the flexibility and ease of use you deserve.

Thoughtful Design for Enhanced Recording Stability

Achieve personalized operations

Adjustable Sound Isolation Shield

φ0.49in / 12.5mm Painted Steel Tube

Three-Leg Desktop Stand

Microphone U-Type Pop Filter

Shock Mount

Our desktop tripod, coupled with a thick steel tube, effortlessly supports large recording equipment. Featuring an adjustable isolation shield and double-sided pop filter, it shields your recording process from external disturbances. The shock mount offers a stable recording experience.

Simple Three-Step Installation

Save your time and energy

Step 1

Unfold the stand and secure

Step 2

Use included components to mount sound isolation shield and shock mount

Step 3

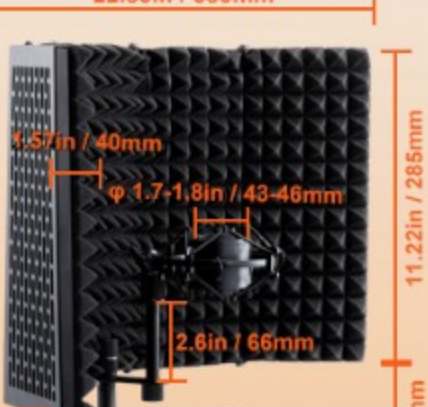

Attach the U-Shaped pop filter

Note: For detailed installation instructions, refer to the included user manual

1. Set up the stand on a flat and stable surface to avoid tipping. 2. Protect your equipment from scratches and impacts. 3. Periodically inspect and maintain the isolation shield. 4. When not in use, store it in a cool, dry place to avoid rusting.
