Why Choose VEVOR?

- Premium Tough Quality
- Incredibly Low Prices
- Fast & Secure Delivery
- 30-Day Free Returns
- 24/7 Attentive Service

STAINLESS STEEL BLADE

- Aluminum Housing
- 0.5mm Thickness
- Rigid and Straight Blade

Stainless Steel Blade

0.5mm high-quality stainless steel material is reliable, strong and lightweight enough for daily use; helps offer the perfect amount of flex for effortless skimming.

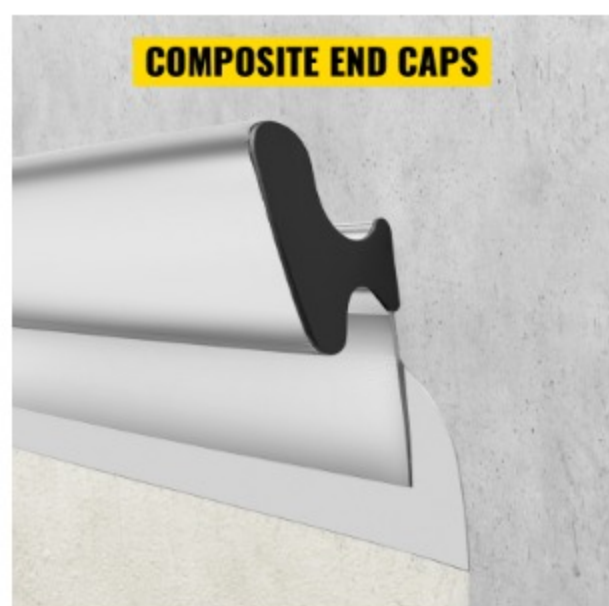

ERGONOMIC HAND GRIP

Comfortable for All-day Use

Ergonomic Hand Grip

VEVOR analyzes the details of its ergonomic grip designs. A comfortable non-slip handle grip design will not cause hand cramps and ensures users won't be exhausted after a long working time.

COMPOSITE END CAPS

Composite End Caps

Avoid drywall compound from accumulating and drying inside the skimming blade housing. Plastic material also allows for an easy cleanup.

REPLACEABLE BLADE INSERTS

- Simple to Replace
- Cost-effective

Replacement blades are not included.

Replaceable Blade Inserts

Blade inserts are easily replaced if damaged or worn (not included). Lightly slide into the blade housing for a snug fit. More cost-effective than replacing the entire skimming blade.

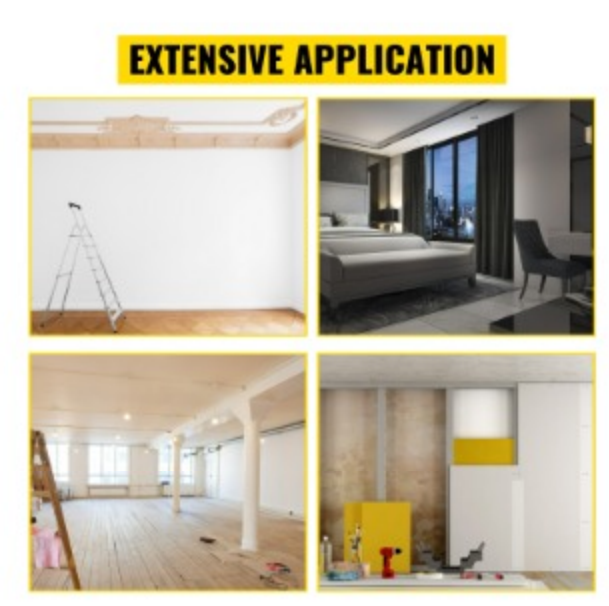

EASY TO CLEAN DESIGN

Before

After

Easy to Clean Design

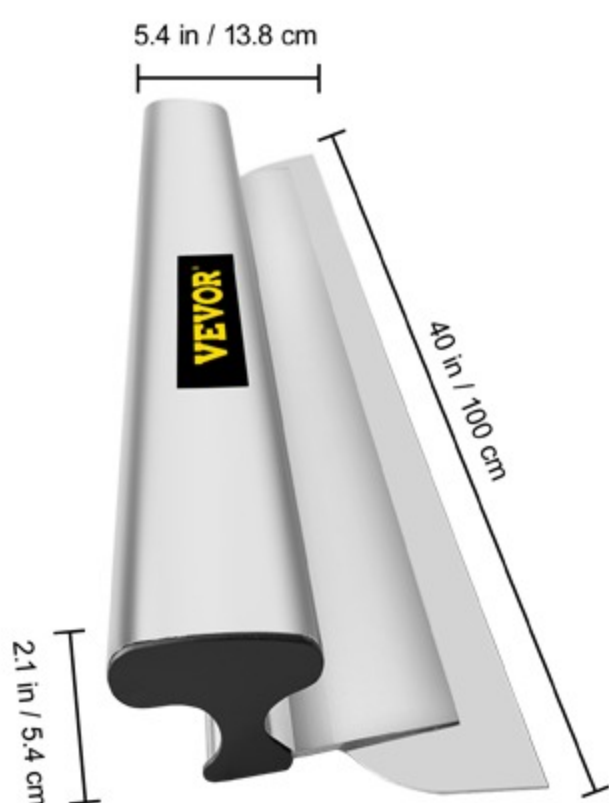

Stainless steel and reinforced aluminum blade body materials are easy to clean and are able to withstand heat and rust at the same time. Tremendously cutting down cleaning process.

EXTENSIVE APPLICATION

Extensive Application

Our high-quality taping knives are designed to apply and smooth gypsum plaster over larger areas. Sharp and non-stick blade will give you easy to get straight lines, jointing, edges, and fixings.
