## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**General Information:** SHAKE WELL BEFORE USE. Hold container upright. Do not spray up into air. Apply to surfaces only as a spot and crack and crevice treatment. Turn sprayer nozzle to “on” position. Hold approximately 12 inches from surface to be sprayed. Squeeze trigger to spray until surface is slightly moist. Repeat application as needed, but not more than once per week.

This product's long-lasting action keeps on killing for up to 4 months after you spray. Contact kill gives you immediate results when spraying insects directly, while residual activity kills insects when they return to treated areas. Use caution on fine finishes and fabrics. Test small area first.

This product is intended to be used in and around residences and their immediate surroundings such as (but not limited to): **apartments, atriums, attics, automobiles, basements, bathrooms, boats, cabins, campers, carports, cat sleeping quarters, clothes storage, condominiums, decks, dens, driveways, garages, gazebos, homes, kitchens, lanais, living rooms, parlors, patios, pet sleeping areas, play rooms, porches,**

**recreational vehicles, rooms, solariums, storage areas, sun rooms, utility rooms and verandahs.**

Do not use in commercial food handling establishments, restaurants or other places where food is commercially prepared or processed.

Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

## **INDOORS**

**Ants:** Spray around ant trails, doors and windows and other places where ants enter the house.

**Carpenter Ants:** For control, locate and treat nests and surrounding areas. Apply around doors, windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

## **OUTDOORS**

Remove all exposed food and cooking utensils. Cover all food handling surfaces or wash thoroughly after treatment and before use. Do not use on edible crops. Do not water the treated area to the point of run-off. Do not make applications during rain. All outdoor applications must be

limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

- (1) Treatment to soil or vegetation around structures;
- (2) Applications to lawns, turf, and other vegetation;
- (3) Applications to building foundations, up to a maximum height of 3 feet.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only.

Point sprayer away from face. Hold sprayer on a slight downward angle, approximately 12 inches from surface to be sprayed. Spray with wind if breeze is blowing. Do not contaminate fish ponds or apply directly to water.

**Ants:** Spray around ant trails and hills. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris.

**Wasps, Mud Daubers\*, Hornets, Yellow Jackets and Bees:** Spray nests and other surfaces where bees may rest. Aim spray at nest openings. Applications should be made late in the evening when insects are at rest. \*Not for use on Mud Daubers in California.

**Termites, Carpenter ants AND Carpenter bees:** (for localized control only). Apply this product to voids or channels in damaged wood of a structure or to cracks, crevices and spaces in and between wooden portions of a structure or between wood and the foundation, in locations vulnerable to attack such as crawlspaces. For termites, the purpose of such applications is to kill workers or winged forms, which may be present in the treated areas at the time of application. Not recommended as sole protection against termites. For active infestations, get a professional inspection. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but are merely a supplement. For severe termite infestation, contact a professional pest control operator in your area.

## **STORAGE & DISPOSAL**

**Pesticide Storage:** Store and transport in an upright position. Store in a cool dry area.

**Pesticide Disposal & Container Handling:** *If empty* - Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. *If partly filled* - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

## **PRECAUTIONARY STATEMENTS**

### **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Contact with product may result in transient tingling and reddening of the skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling.

### **ENVIRONMENTAL HAZARDS**

This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

### **PHYSICAL AND CHEMICAL HAZARDS**

Do not apply this product in or on electrical equipment due to possibility of shock hazards.

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378 or SafetyCall® International at 833-972-1101.

Notice: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
